# Tired of rental shoes that look grimy weeks later?

**Y**ou have two options when selecting rental shoes: premium shoes that last long, look good, but cost more—an expensive problem if they get stolen. Or, value shoes that cost less to replace.

Among value shoes, you can get cheap cloth that stains and wears out quickly, or suede that stains even faster and looks ragged in weeks. Some value shoes even use swine skin soles to cut costs (controversial—since they can't be worn by certain faiths).

So how do you get shoes that look good longer, perform as well as premium shoes, but are less expensive to replace?

Introducing...

**QUBICAAMF**  
**SuperValue Rental Shoes\***  
*Maximum Durability and Performance for the Best Price*

## SuperValue Shoes Look New Longer

Unlike cloth and suede, the sturdy but flexible polyurethane uppers repel dirt and don't absorb liquids (like sodas and nacho dip). In addition, one wipe is usually all it takes to keep them looking great. Try that with suede!

SuperValue shoes use a Goodyear welt construction sewn completely through the sole, just like premium shoes (without the cost).

## Get Superior Slide Performance...

The same high performance microfiber sole as seen on the best professional shoes, delivers consistent slide on both wood and synthetic lanes.

A padded collar and foot bed cushions the bowler's ankle and foot to reduce fatigue—maybe they'll bowl more games!

SuperValue shoes look stylish and modern with popular glow accents, reducing those "ugly shoe" complaints.

*"At last, a reasonably priced rental shoe that is comfortable, looks great, slides well, and withstands the high usage in my center." John Losito, Sun Valley Lanes*

## Reduce Inventory by up to 1/3!

With unisex sizing, both men's and women's sizes are marked on the back of every shoe for quick selection. This allows you to stock more of the core sizes while reducing the less popular sizes by half!

Reduce delays and turn away fewer bowlers, while decreasing "shrink" and inventory cost.

## Best Value for the Price

SuperValue shoes are almost half the cost of premium shoes and less than almost every competitive product.

Combine the affordable price with durability, great comfort, excellent slide, and a cool style and you have the market's ultimate value-based shoe. Wise choice!

Plus, they're guaranteed by QubicaAMF, a market leader in the bowling industry!

So, how do they compare? See for yourself.
