

C, C++ and
Java Support

All these Mac developers can't be wrong

CodeWarrior is the only serious choice for professional Mac® development.

Chances are, every Mac program you use was created using CodeWarrior. In fact, more than 90% of all commercial Mac OS applications are built with CodeWarrior.

Built with the Mac developer in mind.

The CodeWarrior Integrated Development Environment (IDE) has won every major award given to Mac development software. It's the worldwide standard for

CodeWarrior keeps you ahead of the curve with AltiVec and future OS X support.

creating Mac software, and continues to lead the industry.

Check out these CodeWarrior benefits:

- ✓ The state-of-the-art IDE *shortens your development time.*
- ✓ *Everything you need in one box...* project manager, editor, compilers, debuggers, linkers, assemblers, profilers, a file compare utility, our world-class framework PowerPlant™, and the flexibility to plug-in third party components.
- ✓ Use *the same familiar toolset* to develop for all the major platforms, including Windows®, Linux, Solaris™, game consoles and embedded platforms.
- ✓ Tightest ISO/IEC *C++ standards compliance.*
- ✓ *C, C++ and Java™ support.*

Go with the world-class standard.

Use the same powerful, flexible, fast toolset that built world-class apps like Adobe® Photoshop® and Netscape® Navigator®.

See for yourself.
